AIR STREAM SYSTEM

Air vents at points 5 and 7 o'clock of the racket frame let the air pass through smoothly, which reduces air resistance by 8.2% and enhances swing speed by 3.1%.

TURBO CHARGING

Turbo Charging technology enhances the swing potential and elasticity of the racket frame to increase swing speed by 3.5%.

3D BREAK FREE

3D break free technology reduces air resistance by 10.5% to improve swing speed, which generates the shuttle speed to increase by 4.8%.
